Landscape & Lighting District Survey

Support to Reauthorize L&L District

N=200
Margin of error

±5.5% to 7%

Question 5.0: In order to provide ON-GOING funding for the types of City services we just talked about, property owners may be asked to reauthorize the existing Landscape and Lighting District within the City. Current annual assessments range between \$102 and \$163 for residential lots and \$122 and \$444 for commercial lots. If you were to vote TODAY on an extension of the Landscape and Lighting District in Hercules to include all of the maintenance we have been discussing, would you vote YES to reauthorize it?
